

Miller *Beginning Algebra* and *Intermediate Algebra* provide an alternative approach to the high school algebra course. This series leads students step-by-step through the study of algebra. Problem Recognition Exercises help students learn the difference between problem types and determine which strategies are most effective for finding solutions. These exercises, along with practice problems, give students the conceptual understanding and preparation needed to achieve success.

This edition offers:

- **ALEKS® 360**, which provides a personalized learning experience for each student.
- **Online Learning Center** with valuable resources for students and teachers.
- **Downloadable eBook** available through ConnectED

ALEKS® 360 with eBook Integration

ALEKS®360 is designed to meet the needs of today's students. Using adaptive artificial intelligence, ALEKS 360 identifies precisely what each student knows and doesn't know, and prescribes an individualized learning path tailored to their unique strengths and weaknesses. ALEKS 360 also features an integrated eBook with media-rich resources and features including highlighting, bookmarking, and note-taking capabilities. A clean, modern, mobile-ready interface allows students to easily navigate their learning, track their progress and manage their assignments from anywhere.
